Extension Description

GeoIP Currency Auto Switcher extension by MagestyApps detects visitor's location by IP address and automatically converts product prices to the currency which should be used for this location. It also provides flexible settings to prevent prices from changing when they are parsed by search engines.

Installation Guide

- 1 Disable the Compilation Mode (if enabled)
- 2 Enable Magento cache if disabled
- 3 Log out from Magento Admin panel if you are logged in
- 4 Unpack the contents of the 'extension' folder from the package file purchased from MagestyApps to your Magento root folder
- 5 Log into Magento Admin Panel
- 6 Go to 'System > Cache Management' section, select 'Refresh' under 'All Cache' drop-down menu and press 'Save Cache Settings'
- 7 You can run the Compilation mode back if necessary (not enable but run it)
- 8 Now go to 'System > Configuration > MagestyApps Extensions > GeoIP Extensions' section. If you see the extension's settings then you are done.

NOTE: MagestyApps provides absolutely free professional installation of this extension. So if you have any issue with its installation or want us to install it to your website then please contact us via email: alex@magestyapps.com

Extension Configuration

GeoIP Extensions
