Installation Guide

- 1 Disable the Compilation Mode (if enabled)
- 2 Enable Magento cache if disabled
- 3 Log out from Magento Admin panel if you are logged in
- 4 Unpack the contents of the 'extension' folder from the package file purchased from MagestyApps to your Magento root folder
- 5 Log into Magento Admin Panel
- 6 Go to 'System > Cache Management' section, select 'Refresh' under 'All Cache' drop-down menu and press 'Save Cache Settings'
- 7 You can run the Compilation mode back if necessary (not enable but run it)
- 8 Now go to 'System > Configuration > MagestyApps Extensions > GeoIP Extensions' section. If you see the extension's settings then you are done.

NOTE: MagestyApps provides absolutely free professional installation of this extension. So if you have any issue with its installation or want us to install it to your website then please contact us via email: alex@magestyapps.com

Switching Store and Tax

General settings

To view/edit general settings of the extension please go to System > Configuration > MagestyApps Extensions > GeoIP extensions in you admin panel.

GeoIP Store Switcher		
Automatically Switch Store	<input type="text" value="Yes"/>	[WEBSITE]
Switch Store	<input type="text" value="Always"/> ▲ One Time - store will be switched only during the first visit. Always - store will be always switched automatically. Customers will not be able to change store manually.	[WEBSITE]
Switcher Scope	<input type="text" value="Global"/> ▲ Global - switch between all available store views. Website - switch between store views only inside visited website. Store Group - switch between store views only inside visited store group.	[GLOBAL]
Automatically Calculate Tax	<input type="text" value="Yes"/> ▲ Tax will be automatically applied based on visitor's country when shipping country is not provided	[WEBSITE]
Store-Country Relations	Manage Relations	[GLOBAL]

Automatically Switch Store - enables/disables the extension's functionality.

Switch Store - set whether store should be switched only for the first visit or permanently.

Switch Scope - configure whether the store should be switched between store inside current store group, current website or globally.

Automatically Calculate Tax - if enabled then local tax rates will be automatically switched.

Store-Country Relations - press "Manage Relations" button to get redirected to the page where you can assign specific countries to appropriate stores.

Manage Store-Country Relations

Please, go to MagestyApps > GeoIP Store Switcher > Store-Country Relations in your admin panel to manage the relations and assign countries to store views.

Manage Store-Country Relations [Save Relations](#)

Website	Store Group	Store View	Related Countries *							
European Website (Code: eu)	European Website Store	English (Code: en)	GB Change							
		Finland (Code: fi)	<table border="1"> <tr><td>Fiji</td></tr> <tr><td>Finland</td></tr> <tr><td>France</td></tr> <tr><td>French Guiana</td></tr> <tr><td>French Polynesia</td></tr> <tr><td>French Southern Territories</td></tr> <tr><td>Cancel</td></tr> </table>	Fiji	Finland	France	French Guiana	French Polynesia	French Southern Territories	Cancel
		Fiji								
		Finland								
		France								
		French Guiana								
		French Polynesia								
		French Southern Territories								
		Cancel								
		French (Code: fr)	FR Change							
German (Code: de)	AT, DE Change									
Ireland (Code: ie)	IE Change									
Italian (Code: it)	IT Change									
Netherlands (Code: nl)	NL Change									
Singapore (Code: sg)	SG Change									
Spanish (Code: es)	ES Change									
American Website (Code: america)	American Website Store	Brazil (Code: br)	BR Change							
		Canada (Code: ca)	CA Change							
		USA (Code: us)	US Change							

To set a relation press “Change” near the necessary store view and select countries which should be redirected to this store view. After setting all the relations press “Save Relations” button in top right corner.

That’s all! Now your visitors should be forwarded to corresponding stores.

Switching Currency

GeoIP Currency Switcher

Automatically Switch Currency [STORE VIEW]

▲ Note that the extension can switch only between the currencies which are enabled in you magento config.

Everything you can configure here is to enable or disable currency auto switcher. All the rest of work will be done automatically.

Blocking IPs and Countries

GeoIP Blocker

Enable [STORE VIEW]

Countries Blacklist [STORE VIEW]

Afghanistan
 Åland Islands
 Albania
 Algeria
 American Samoa
 Andorra
 Angola
 Anguilla
 Antarctica
 Antigua and Barbuda

IP Adresses Blacklist [STORE VIEW]

23.132.132.54
 56.45.342.42
 111.23.653.4

▲ Specify one IP address per line

Custom Redirect URL [STORE VIEW]

/errors/403.html

▲ Specify the URL which the blocked visitor should be redirected to. If empty then the visitor will see the default 403 error page.

Enable - turn on/off GeoIP blocking.

Countries Blacklist - list of countries to be blocked

IP Addresses Blacklist - list of IP addresses to be blocked

Custom Redirect URL - *the blocked visitors will be forwarded to this URL. If it is empty then the default "Access Denied" page will be shown*
