

# Installation Guide

## for Magento 2 Advanced Breadcrumbs Extension

1. Log into your Magento server as a user that has enough permissions to write files in the Magento folders
2. [Download](#) the extension's package from your account
3. Extract the package's content to the root folder of your Magento setup

4. Go to the Magento installation (root) folder:

```
cd <magento_root_folder>
```

5. Enable the module with the command below:

```
php bin/magento module:enable MagestyApps_AdvancedBreadcrumbs
```

6. Update the database:

```
php bin/magento setup:upgrade
```

```
php bin/magento cache:flush
```

```
php bin/magento setup:static-content:deploy
```
